July 22, 1958

Dear Dan:

This proposal recommends the addition of certain items to Equipment List Y-X, 3-Channel Data Reduction Spares for Requirement No. 3. The added items provide depot spares support for the "E" rack, MP-10549.

With this proposal, the two authorized List Y's for Requirement No. 3 are retitled "List Y-X", since they are now different from the List Y used by Requirement No. 1.

We have coordinated these items with Bill D. and have received his approval. The items marked "GFE" on the enclosed list of additions, will be furnished directly by Bill D., but are listed to reflect the true requirements.

The estimated cost of these additional items is \$987, and the fixed fee of 8.25% computed on this amount is \$81. The total estimated cost including fee is \$1,068 for one list, or \$2,136 for the two authorized depot spares lists.

Sincerely,

  
Dean
